

Problem-Solution Fit

Date	01 October 2026
Team ID	SWTID-2026-4323
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] • Employees who require a standard laptop for their work. • IT procurement team members who process laptop requests. • Hardware team members responsible for laptop configuration.	6. CUSTOMER LIMITATIONS [CL] EG. BUDGET, DEVICES • Employees depend on the IT team for laptop configuration. • Users may have limited visibility into the configuration process. • IT staff must manually manage tasks when automation is not available. • The process depends on ServiceNow access and configured workflows.	5. AVAILABLE SOLUTIONS [AS] PROS & CONS Manual procurement process Pros: • Existing process is familiar to the IT team. • No additional workflow configuration is initially required. Cons: • Requires manual task creation. • Requires manual assignment to the Hardware team. • Can cause delays. • Higher possibility of human error.
2. PROBLEMS / PAINS [PR] + ITS FREQUENCY • Manual creation of configuration tasks. • Delay in assigning approved laptop requests to the Hardware team. • Possibility of overlooking configuration tasks. • Additional manual work for the IT procurement team. • These issues can occur whenever a Standard Laptop request requires processing.	9. PROBLEM ROOT / CAUSE [RC] The main root cause is the lack of automation between the approval of a Standard Laptop request and the creation and assignment of the hardware configuration task. This requires manual intervention and can result in delays or missed tasks.	7. BEHAVIOR [BE] + ITS INTENSITY • Employees submit Standard Laptop requests through the Service Catalog. • Employees check the status of their requests. • IT procurement staff process approvals. • Hardware team members configure laptops. • Delays in configuration can increase user frustration.
3. TRIGGERS TO ACT [TR] • Employee needs a laptop for work. • A Standard Laptop request is submitted through the Service Catalog. • The request receives approval. • The approved request needs to move to the configuration stage.	10. YOUR SOLUTION [SL] Standard Laptop Procurement Automation using ServiceNow Flow Designer When a Standard Laptop request is approved, the Flow Designer workflow will: 1. Detect the approved request. 2. Create a Catalog Task automatically. 3. Set the short description to "Laptop need to be Configured." 4. Assign the task to the Hardware assignment group. 5. Allow the Hardware team to begin laptop configuration promptly.	8. CHANNELS OF BEHAVIOR [CH] ONLINE • ServiceNow Service Catalog • ServiceNow Requested Items • Approval records • Catalog Tasks
4. EMOTIONS [EM] BEFORE / AFTER Before automation: • Frustrated • Concerned about delays • Uncertain about request progress After automation: • Relieved • Confident that the task is assigned • Satisfied with the faster and more consistent process		OFFLINE • Hardware team laptop configuration • Communication between IT procurement and Hardware team
