

No. of Functional Features Included in the Solution

Date	01 October 2026
Team ID	SWTID-2026-4323
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution	
					Marks	Contribution
1	Standard Laptop Catalog Item	Provides the Standard Laptop option for users to place a procurement request.	Service Catalog	Done	1	Enables users to submit standard laptop orders.
2	Service Catalog Trigger	Starts the automation when a Standard Laptop service request is submitted.	Flow Designer	Done	1	Initiates the automated procurement workflow.
3	Approval-Based Processing	Ensures the task is created after the laptop request receives approval. Automatically creates a	Flow Designer / Approval	Done	1	Prevents unnecessary task creation before approval.
4	Automatic Catalog Task Creation	Catalog Task for the approved laptop request. Automatically sets the	Flow Designer	Done	1	Reduces manual task creation.
5	Task Description Update	short description and description to indicate that the laptop needs configuration. Automatically assigns the	Catalog Task	Done	1	Clearly communicates the required configuration activity.
6	Hardware Assignment	generated task to the Hardware assignment group. Links the generated	Catalog Task / Flow Designer	Done	1	Ensures the configuration task reaches the responsible team.
7	Requested Item Integration	Catalog Task with the Standard Laptop Requested Item. Verifies the complete	Service Catalog	Done	1	Provides traceability between the request and fulfillment task.
8	Automated Workflow Validation	process from laptop request and approval to Catalog Task creation and assignment.	Service Catalog / Flow Designer	Done	1	Confirms that the automated procurement workflow works as intended.

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	7
Additional / Nice-to-Have Features	1
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	1	Standard Laptop Service Catalog Item
2	Backend / Logic	5	Service Catalog Trigger, Approval Processing, Catalog Task Creation, Description Update, Hardware Assignment
3	Database / Storage	0	No separate database/storage component is implemented
4	API / Integration	0	No external API integration is implemented
5	Security / Authentication	1	Approval-based processing
